

PUBLIC NOTICE OF AVAILABILITY OF FINDING OF NO SIGNIFICANT IMPACT

Environmental Assessment and Finding of No Significant Impact (FONSI) for the Fort Lauderdale Wave Streetcar/Downtown Transit Circulator Project City of Fort Lauderdale, Florida

The South Florida Regional Transportation Authority (SFRTA), in partnership with Broward County, the Fort Lauderdale Downtown Development Authority (DDA), the City of Fort Lauderdale, Florida Department of Transportation (FDOT) and Broward Metropolitan Planning Organization (BMPO), wish to inform you that the Federal Transit Administration (FTA) issued on September 10, 2012, a determination of Finding of No Significant Impact (FONSI) for the Environmental Assessment (EA) prepared for the Wave Streetcar, previously known as the Downtown Transit Circulator (DTC) Project. The project consists of the construction of a new streetcar system in Downtown Fort Lauderdale. The proposed Wave Streetcar would extend approximately 2.7 miles from SE 17th Street and Andrews Avenue, adjacent to Broward Health Medical Center, running north to NE 6th Street and NE 3rd Avenue. The project alignment would primarily be along Andrews Avenue, Brickell Avenue and E 3rd Avenue.

The EA has been prepared in compliance with the requirements of the National Environmental Policy Act (NEPA) of 1969, as amended, and Council on Environmental Quality (CEQ) Regulations. The EA analyzes the environmental consequences that may result from the Wave Streetcar project. Furthermore, the EA includes measures to reduce or prevent these environmental consequences. The FONSI sets forth the FTA decision regarding the safety and environmental factors regarding the project, and the final decision regarding these factors.

The FONSI and EA documents are available for public review at the following location:

City of Fort Lauderdale Transportation & Mobility Building, 290 NE 3rd Ave, Fort Lauderdale, FL, 33301
Monday to Friday from 8 a.m. to 4 p.m.

The FONSI and EA documents can also be viewed on the project website: www.wavestreetcar.com
